REDEX ADBLUE WITH SPOUT

If your car uses Adblue®, you need a backup plan in case it runs out.
Adblue® is used in diesel cars to reduce emissions by up to 80%, & if your Adblue® tank is empty, your car won't start, so it's best to plan ahead.
Topping up your Adblue® can be difficult, as you need the right kind of bottle.
Redex Adblue's® unique bottle has a secure opening & locking system so you don't need to free pour it, preventing nasty spillages & odours. The bottle can be stored safely in your boot without risk of leaking so you can use it any time you start running low.
Easy pour solution
Reduces NOX emissions by up to 80%
Keep in the boot to top up
ISO22241-1 compliant
Don't run out or your car won't start!

CH9696JF

Prices valid from 21 June to 11 July 2021. Cash or credit card only. Prices valid in RSA and Lesotho only. Unless we state a specific limitation, Midas will attempt to have sufficient advertised stock available to meet consumers' anticipated needs. Should we still run out of stock, we will attempt to obtain the stock or we will offer you a reasonable alternative. At Midas, we take special care to ensure that the adverts placed are correct. If a mistake occurs or incomplete information is printed, we will display a notice in-store with all the correct details. Prices include 15% VAT.
